

## “OPHTHALMOLOGY SYMPOSIUM FOR PRIMARY EYE HEALTH PROVIDERS”

One of ISEC's core vision is to advance and disseminate ophthalmic knowledge through meaningful health education and continual professional development. This one day symposium aims to provide an update on ophthalmology to primary eye health providers. The topics for discussion are wide ranging and include anterior segment diseases, glaucoma, diabetic eye diseases, retinal diseases, paediatric eye diseases, strabismus and oculoplastic eye disorders. This symposium will be conducted by ISEC's panel of experienced subspecialty trained ophthalmologists.
